**Subject:** The agreement does not help consumers

I am very disappointed in the agreement reached by the Department of Justice and Microsoft.

Their past compliance with government restrictions should be a good indicator of future performance. I see no reason to believe that they will honor the current restrictions, given the weak monitoring and enforcement mechanisms.

Microsoft's increasing restrictions, monitoring, and control of consumers in the face of antitrust litigation is clear evidence of a monopoly that needs to be moderated.

I hope the government will take action to benefit consumers, and restore some form of competition to the market.

Thank You,
